**E-MAIL** mail@erhanyasar.com.tr  
**NATIONALITY** Turkish  
**DATE OF BIRTH** 13.07.1985

**DESIRED POSITION** UI/UX Designer & Developer

**SUMMARY** After getting through Naval High School and Naval Academy respectively, I graduated as a Computer Engineer Navy Ensign. Whilst serving 6,5 years on various assignments as a Turkish Navy Officer, I joined many operations, trainings and exercises under command of UN & NATO. After starting Computational Art & Design Master in 2013, I resigned at the rank of Lieutenant Jr. Grade. Since then, I'm designing UI/UX & developing frontend besides seeking curiosity for backend stack. I enjoy either design or development starting from scratch with sketching wireframes to prototyping it with pure HTML/CSS/Javascript as well as frontend's itself.
